### Our school strategies are on track to meet or exceed our targets

During 2016, we focused on maximising the benefits of this funding to deliver targeted intensive reading support to all Preliminary and Basic level students and targeted comprehension reading support to all Intermediate and Cert I level students.

After reviewing our *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We are continuing to implement our strategies to ensure that every student experiences success in the development of their reading strategies and comprehension.

Strategies implemented include:

- Providing human and physical resources to increase initial PM Benchmark assessment by one level (minimum) every 3 months.
- Increasing Teacher aide time for one-on-one reading
- Purchasing resources to maximize success in the teaching of reading and students' reading outcomes
- Aligning the timetable to allow for focused reading intervention classes.
- Continuing to build the capacity of teachers and support staff through coaching and mentoring.
- Continuing to develop the volunteering partnership with the community.
- Providing Professional Development for volunteers in Support – A – Reader strategies.
